

Capturing a screen from the Agilent Oscilloscope in WORD.

Open word, select the Add-Ins menu

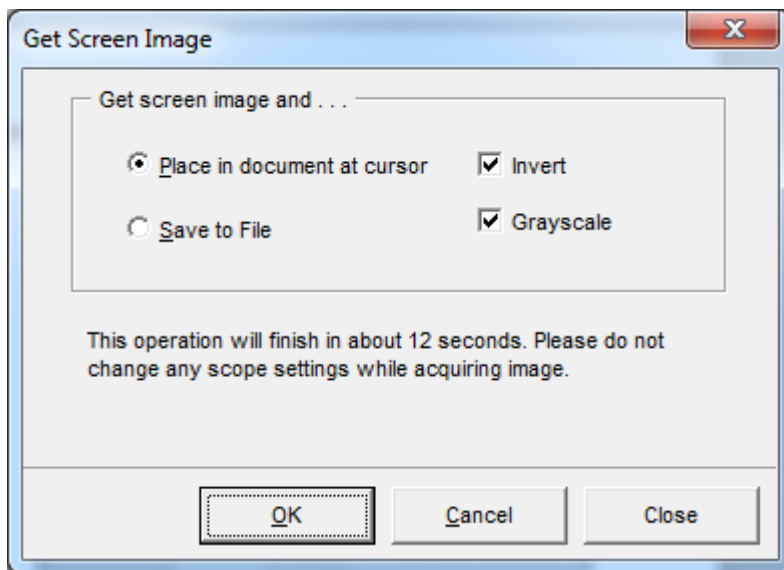

Then select the connect to scope icon, a message will come up showing a search is being made, then use should see the following screen.

Double click on the correct USB device and then once the MSO-X2002A instrument is highlighted, Select OK.

You can now click on the camera icon to capture the screen and the following message will appear.

Select to place it in word or save to a file.
